Meredith Area Support Group for People with Parkinson's and their Care Partners

MEREDITH, NH – People with Parkinson's disease and their care partners can find a welcome oasis at the Meredith Area Support Group for People with Parkinson's and their Care Partners. The meetings will be held the third Thursday of each month at 2:00pm at the Meredith Bay Colony Club; a retirement community located just off the roundabout at the junction of Routes 3 and 106 in Meredith on Mile Point Drive.

The Support Group will be a place to share knowledge about Parkinson's disease, get connected with experts and to meet other people who have common experiences and interests.

The first meeting of the Meredith Area Support Group will be December 17th at 2:00pm. Ray Lord, facilitator of the Lakes Support Group in Wolfeboro, will be joining us with his wife, Priscilla, who has Parkinson's. They will share with us their experiences and answer questions anyone might have.

Information on Parkinson's disease and its symptoms will be available for anyone new to Parkinson's as well as information for folks who have had the disease for a significant length of time.

For questions or further directions, contact Kathie Thorndike, RN at kthorndike@meredithbaycolonyclub.org or 603-279-1530
